global & local
TPA solutions
for your business

claims handling services

for you

BROADSPIRESM

by Crawford & Company

The most important part

of your third party administration programme is

you.

Working together, we create a comprehensive, integrated approach distinct to your business.

BroadspireSM is the brand of Crawford & Company for high quality pan-European Third Party Administration (TPA) services. Our goal is to meet your global & local needs through a customised claims handling strategy and a management programme designed to exceed your expectations.

end-to-end TPA solutions offered to you encompassing all lines of business

Our complete claims services are provided from FNOL (First Notification Of Loss) to settlement, for corporations, insurers, brokers and other entities with attendant needs for financial/risk management data and treasury fund management. Your TPA programme will include:

- a **world class** quality claims process and bespoke claims philosophy created with you, which both supports and protects your brand and reputation;
- a dedicated Client Manager to meet all of your business requirements;
- effective project management and implementation designed to avoid business disruption;
- access to Crawford's wide national and global network of specialist claims expertise.

With a TPA presence in 25 countries across Europe and in more than 85 locations globally, we offer:

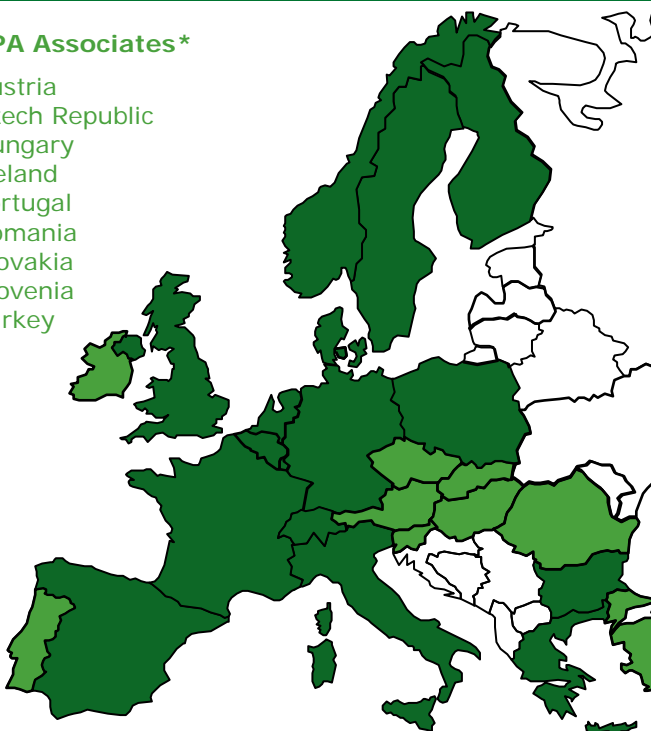

- a web-based system, **e-ClaimsSM**, designed to provide consistency of approach for claims handlers around the globe (multi currency capability, quality management and cross border data consolidation), ideal for insurers and brokers offering insurance under Freedom of Services in Europe;
- global reach combined with local knowledge (culture, law, language);
- wide array of TPA services (lines of business which include: motor first and third party, ULR; general, product and employers' liability; property; marine and transportation; travel; personal injury);
- a flexible strategy resulting in shorter claims lifecycles and stringent control of indemnity spend.
